These projections show the override income you can received by building a sales team that does from 1 to 50 new sales per day, 5 days per week. The projected income amounts listed are based upon qualifying for overrides of 4885 Pro-Driver sales with an on-going method of payment. We have factored in a certain percentage of members renewing each year to come up with the 2nd, 3rd, and 5th year renewal income to show you what the potential is for overrides on new sales plus renewals. As you know, renewal income is considered earned income the 2nd year forward, which goes to reduce debit balance. Also 1/2 of your matrix income will go to reduce your debit balance. However, as you can see, if you are selling 10 - 50 new members per day in your organization, based on your renewal income your debit balance should go away in short order. We have not attempted to calculate the matrix income but as all of you know, it should also be substantial at the higher levels of sales.
