

SECTION A - EMERGENCY ROAD SERVICE AND TOWING

We will pay the reasonable service charge of garage or service station whenever you are prevented from driving **your covered auto** because of a problem occurring on the road. See your membership card for instructions as to how to obtain service. Help will be sent to the location of **your covered auto** if it is in an area that is accessible to the service truck. If safe conditions permit, stay with **your covered auto** until service truck arrives.

We will pay the reasonable service charge to get **your covered auto** on its way but will not pay for any parts installed by the serviceman.

If the serviceman is not able to get **your covered auto** on its way within one half-hour of his arrival, you may have it towed to the nearest available garage. We will pay the reasonable charge for the tow but will not pay any additional charges if you request to be towed to somewhere other than the nearest garage.

If you cannot obtain service by using our toll-free number and must call a local garage, pay the garage or service station for the service performed, ask for the original receipted bill and send it to us within 90 days for reimbursement. We will reimburse you the reasonable charge for the service performed up to \$100.00; a second charge for the same disablement is not covered.

This service also includes:

- a. Replacing a flat tire with your inflated spare tire or towing **your covered auto** to the nearest garage if you don't have a spare tire;
- b. Opening locked doors.
